This license agreement applies to the software product TallPDF.NET 1.0.x, with x being any number. In this license agreement, this product will be referred to as 'Software'.

LICENSE TYPE 1: SERVER LICENSE

You are granted the right to use the Software for an unlimited period on a single computer (server) that can be accessed by one or more users concurrently and is run by you. The number of required server licenses is determined by the number of servers on which the Software is installed. The number of users and number of CPUs are irrelevant. The Software may be transferred to another server provided that no copies of the Software are retained on the previous server. So at any moment, the Software is installed at atmost one server. The Software is licensed, NOT sold. TallComponents continues to own the Software.

LICENSE TYPE 2: DESKTOP LICENSE

You are granted the right to use the Software for an unlimited period as an integral part of a product that is developed by you. This license does NOT apply to a 'server product' as described in section 'SERVER LICENSE'. The desktop license also does NOT apply to products that mimic or duplicate the functionality of the Software or are a deravitive of the Software. The number of required licenses is determined by the number of redistributed copies of the product of which the Software is an integral part. This number is referred to as 'seats'. Whenever you sell non-free upgrades of your product, you should buy new desktop licenses as if you sell a new product. The Software is licensed, NOT sold. TallComponents continues to own the Software.

LICENSE TYPE 3: EVALUATION LICENSE

As 'DESKTOP LICENSE' and 'SERVER LICENSE' except that all rights are granted for a limited period and apply strictly to the 'evaluation version' of the Software. The 'evaluation version' of the Software prints an 'evaluation notice' on each generated page. The Software is licensed, NOT sold. TallComponents continues to own the Software.
